Privacy-Aware Data-Model Dual-Driven Decision Analysis for Data Security in Distributed Multi-Agent Operations

Yunxiao Wang[1], Haizhuang Liu[1,*], Zihan Liu[1], Haobo Zhao[1], Fuyang Wei[1]

[1]Information and Telecommunications Company, State Grid Shandong Electric Power Company, Jinan 250000, China

Correction to: Yunxiao Wang, Haizhuang Liu, Zihan Liu, Haobo Zhao, Fuyang Wei (2026) Privacy-Aware Data-Model Dual-Driven Decision Analysis for Data Security in Distributed Multi-Agent Operations https://doi.org/10.4108/eetsis.13943

The manuscript has been updated to ensure that the Acknowledgement section accurately reflects the funding support received and complies with the funding body's reporting requirements. The original acknowledgement statement has been revised to include the following sentence: “ 'Research on Key Technologies of Attack Mechanism Mining, Analysis and Decision-Making for Power System Cross-Domain Security Boundary Protection' under Grant 520627250002.".

The original article has been updated.

Keywords: data-model dual-driven, privacy-aware data security, decision analysis, distributed multi-agent operations, SOAR, tool-call evaluation.
