Playbook-Guided Executable SOC Automation for Privacy-Preserving Response in Distributed Networked Systems

Jie Zhang[1], Haizhuang Liu[1,*], Le Ren[1], Yuxiang Zhao[1], Zekai Song[1]

[1]Information and Telecommunications Company, State Grid Shandong Electric Power Company, Jinan 250000, China

Correction to: Jie Zhang, Haizhuang Liu, Le Ren, Yuxiang Zhao, Zekai Song (2026) Playbook-Guided Executable SOC Automation for Privacy-Preserving Response in Distributed Networked Systems https://doi.org/10.4108/eetsis.13946

The manuscript has been updated to ensure that the Acknowledgement section accurately reflects the funding support received and complies with the funding body's reporting requirements. The original acknowledgement statement has been revised to include the following sentence: “ 'Research on Key Technologies of Attack Mechanism Mining, Analysis and Decision-Making for Power System Cross-Domain Security Boundary Protection' under Grant 520627250002.".

The original article has been updated.

Keywords: executable SOC automation, playbook-guided response, privacy-preserving response, distributed networked systems, multi-agent SOC, SOAR orchestration.
