

Improving construction project management through the application of AI, BIM and GIS at the construction investment project management board: The case of Viet Nam

Thanh-Tu Huynh¹, Van-Nam Vo¹

¹SDCT Research Group, Ho Chi Minh City University of Transport, Vietnam

Correction to: Thanh-Tu Huynh, Van-Nam Vo (2026) Improving construction project management through the application of AI, BIM and GIS at the construction investment project management board: The case of Viet Nam. <https://doi.org/10.4108/tsoe.12993>

The manuscript has been updated to include Acknowledgments section with the following statement:

In this article, the Canva image processing application was used by the authors to construct the images illustrating the integration process (Figure 1) and the analysis diagram (Figure 2). This does not affect the analysis and evaluation of the research results presented in the article.

The original article has been updated
